Allocra

7-day content campaign

10 photos + 10 vertical videos (1080x1920, 60 fps), with generation prompts

10	10	7
PHOTOS	VIDEOS	DAYS

Campaign brief

Goal. Introduce Allocra and one idea over seven days: plan a tokenized ETF basket around what you actually want to own, see concentration, overlap, quotes and costs before you confirm, and decide for yourself. The tone borrows the patience of the old masters: calm, deliberate, no hype.

Audience (assumption, please confirm)

- Self-directed investors curious about tokenized ETFs and real-world assets onchain.
- Crypto-native users who want planning and cost visibility rather than a feed of tips.
- People following the tokenization ecosystem (Ondo, xStocks, Centrifuge, Maple, Chainlink).

Pillars

Pillar	Pieces	What it does
Launch / Brand	5	State the promise and sign off with the tagline.
Product / Safety	3	Show the allocation slate and the plan-first, approve-later principle.
Philosophy / Principles / Education	8	The old-masters collection: judgment, overlap, risk, decisions, volatility.
Ecosystem	4	Sourced facts about the five tracked protocols, always with the non-affiliation line.

Voice

- Calm, precise, plain English. Short sentences. Never urgent.
- Never promise returns, never give investment advice, never imply a protocol endorses Allocra.
- Every figure is traceable: the allocation slate is labelled Preview; protocol figures say “Source: official X profile, checked 24 Oct 2026”.

Visual system

- Colour: vermilion #C12E19 (hero, end cards), dark brown #20130E (collection, UI), cream #F6DAC3 (type and cards), accent #CF3321.
- Type: Instrument Serif headlines with tight tracking; DM Sans body; JetBrains Mono labels. Fine grid overlay; thin cream borders.
- Photos: 4:5 at 2160x2700 JPEG. Videos: 1080x1920 vertical at 60 fps, calm original score, no voiceover.
- Videos use ONLY the reference-film grammar (in-place word swaps, cursor-led, one idea per beat on one flat colour, cards rise in, end on centred logo + line or URL).

Fact bank (use only these)

Every number and sentence in the plan comes from the supplied allocra.buzz copy. Add a fact here before using it anywhere else.

Topic	Verbatim fact
Product line	Allocra · Private allocation desk / 01 · MMXXVI · "Your assets. Your allocation."
Hero copy	Plan a tokenized ETF basket around the positions you actually want to own. See concentration, overlap, quotes, and trading costs before you confirm.
Safety line	Plan first. Assets remain individually held until you approve a trade.
Allocation slate (Preview)	Allocation slate / draft · Core allocation · 3 ETFs · US equity 55% · International equity 25% · US bonds 20% · Monthly purchase $1,200 · Issuer tilt High · Overlap 0% · Est. cost / yr $0.50 · tabs Income, Core, Growth.
Principle	Allocation is a decision, not a default.
Collection / 02	Old masters. New allocation. Every great portfolio, like every great painting, is a series of deliberate choices. Allocra borrows the patience of the old masters for the way you invest.
Six paintings	Human judgment, machine precision (Plan with data. Decide yourself.) · Look beneath the percentages (Overlap, concentration, cost) · Know the risk (Looking back is not looking ahead) · Every move is a decision (Strategy over reaction) · Read before you act (Quotes and costs, checked first) · Hold steady (Volatility is part of the story).
Universe / 03	Built around the tokenization ecosystem. Allocra tracks the protocols that bring real-world assets onchain. Every figure below comes from the protocol's own X profile, with a link to check it yourself.
Ondo Finance @Ondo	Tokenized treasuries & stocks. 383.9K followers on X, joined March 2021. In a basket: Low-volatility treasury and equity exposure.
xStocks @xStocksFi	Tokenized equities & ETFs. 87.3K followers, joined April 2025. In a basket: Equity and ETF sleeves.
Centrifuge @centrifuge	Tokenized funds & credit. 94.2K followers, joined April 2018. In a basket: Credit and fixed-income sleeves.
Maple @maplefinance	Onchain credit. 62.4K followers, joined August 2019. In a basket: Yield from onchain lending.
Chainlink @chainlink	Oracles & data. 1.3M followers, joined June 2013. In a basket: Price feeds behind tokenized assets.
Sourcing	Source: official X profile, checked 24 Oct 2026.
Disclaimer (verbatim)	Logos and names belong to their owners and are shown for identification only. Allocra is not affiliated with, sponsored or endorsed by these protocols, and none of their assets can be bought in the TestNet demo.
Footer / tagline	Allocra · Plan clearly. Act deliberately. Assets remain individually held. allocra.buzz

Cadence: post the video first, then the photo 3–4 hours later. Day 4 and Day 5 carry three pieces, Days 6 and 7 carry four. Every post carries the line “Preview / TestNet demo · Not investment advice” where product visuals appear.

How to use the prompts

- Videos: paste the prompt into Claude Code inside the claudemotion repo. It already carries the rules, palette, spec and allowed facts.
- Photos: the preferred route is the AllocraPosts composition (exact logo, type and paintings). The image prompts are for exploring layouts only.
- Check every output against the Fact Bank before publishing.

Master prompts

VIDEO

```
You are working in the claudemotion repo (Remotion 4, Python audio); follow docs/PLAYBOOK.md and the standing rules in AGENTS.md. Allocra brand: vermilion #C12E19, dark brown #20130E, cream #F6DAC3, accent #CF3321; Instrument Serif headlines (tight tracking), DM Sans body, JetBrains Mono labels (self-hosted); logo public/allocra/content/logo.png. Use only facts from the Fact Bank and label the allocation slate as Preview (TestNet demo). Vertical 1080x1920 at 60 fps. One component per scene, drive everything from the frame, timing in a JSON timeline that also drives the calm original score (scripts/oryn/generate_audio.py). Lint, render stills for a contact sheet, then render and verify with ffprobe and ebur128. Task: build a [N]-second vertical film titled [TITLE] in the style of reference film [Krea | Notion | Conqueror | Pages | Supabase]. Video style (standing rule): follow ONLY the motion grammar of the five reference films (Krea 3, Notion agents, Conqueror, “Pages.”, Supabase Middleware): headline words blur in/out and are swapped in place, a cursor or typing caret drives the story, one idea per beat on one flat colour, UI cards rise in from below with soft shadows, end on a centred logo plus one line or URL. No wipes, stamps or shakes. Facts allowed: [PASTE FROM FACT BANK]. Scenes: [LIST WITH TIMES].
```

PHOTO

```
Design one Allocra post (4:5, 1080x1350, delivered 2160x2700). Vermilion #C12E19 / dark #20130E / cream #F6DAC3, tight-tracked high-contrast serif headline, mono labels, fine grid, thin cream borders, one idea, generous negative space, no gradients, no invented data. Copy: [PASTE VERBATIM].
```

DAY 1	V1 · VIDEO	LAUNCH

Your assets. Your allocation.

Format	18 s, 1080x1920 vertical, 60 fps, original calm score + soft UI sounds, no voiceover
Reference	Conqueror (word swap) + Krea (cursor, card)
Objective	Introduce Allocra and its promise in one film.

SHOT LIST

- 0–4 s Vermilion. “Your assets.” swaps in place to “Your allocation.”; mono line: MMXXVI + Private allocation desk / 01.
- 4–9 s The allocation slate (Preview) rises in; donut draws 55 / 25 / 20; cursor clicks Core.
- 9–14 s Dark. “Plan a tokenized ETF basket around the positions you actually want to own.” swaps to “See concentration, overlap, quotes, and trading costs before you confirm.”
- 14–18 s Logo, Allocra, “Plan clearly. Act deliberately.”, typed allocra.buzz.

CAPTION / POST COPY

Your assets. Your allocation. Plan a tokenized ETF basket around the positions you actually want to own, and see concentration, overlap, quotes, and trading costs before you confirm. Plan first. Assets remain individually held until you approve a trade. (Preview / TestNet demo)

#Allocra #TokenizedETFs #Tokenization #RWA #Investing

GENERATION PROMPT (CLAUDE CODE / REMOTION)

```
You are working in the claudemotion repo (Remotion 4, Python audio); follow docs/PLAYBOOK.md and the standing rules in AGENTS.md. Use only facts from the Fact Bank and label the allocation slate as Preview (TestNet demo). Vertical 1080x1920 at 60 fps. One component per scene, drive everything from the frame, timing in a JSON timeline that also drives the calm original score (scripts/oryn/generate_audio.py). Lint, render stills for a contact sheet, then render and verify with ffprobe and ebur128. Task: 18 s film “Your assets. Your allocation.” Video style (standing rule): follow ONLY the motion grammar of the five reference films (Krea 3, Notion agents, Conqueror, “Pages.”, Supabase Middleware): headline words blur in/out and are swapped in place, a cursor or typing caret drives the story, one idea per beat on one flat colour, UI cards rise in from below with soft shadows, end on a centred logo plus one line or URL. No wipes, stamps or shakes. Scenes: (1) in-place swap “Your assets.” / “Your allocation.” on vermilion; (2) allocation slate card rises in, donut animates 55/25/20, cursor clicks the Core tab; (3) dark background, two sentences swapped in place; (4) logo end card with typed allocra.buzz.
```

DAY 1	P1 · PHOTO	LAUNCH

Hero: Your assets. Your allocation.

Format	4:5, 1080x1350 design canvas, delivered at 2160x2700 JPEG
Reference	Allocra site hero
Objective	Pinned post stating the promise.

ON-IMAGE COPY

- Label: Private allocation desk / 01
- Headline: Your assets. Your allocation.
- Body: Plan a tokenized ETF basket around the positions you actually want to own.
- Logo top-right; MMXXVI +

CAPTION / POST COPY

Allocation is a decision, not a default. Plan a tokenized ETF basket around the positions you actually want to own.

#Allocra #TokenizedETFs #Investing

GENERATION PROMPT (IMAGE TOOL, OR AllocraPosts IN REMOTION)

```
Image prompt: Editorial poster, 4:5, flat vermilion (#C12E19) with a very fine cream grid, huge tight-tracked high-contrast condensed serif headline “Your assets. Your allocation.” in cream, small mono label top-left, small painted-asterisk app icon top-right, one line of sans body text bottom-left, generous negative space, no photos, no gradients. Preferred: AllocraPosts frame 0 in Remotion so type and logo are exact.
```

DAY 2 | V2 · VIDEO | PRODUCT

Plan first: the allocation slate

Format	16 s, 1080x1920 vertical, 60 fps, original calm score + soft UI sounds, no voiceover
Reference	Notion (prompt card) + Krea (cursor)
Objective	Show the slate: split, monthly purchase, issuer tilt, overlap, cost.

SHOT LIST

- 0–3 s “Plan first.” swaps to “Before you confirm.”
- 3–12 s Slate rises in (Preview). Cursor drags the Monthly purchase slider up to $1,200; Issuer tilt High, Overlap 0%, Est. cost / yr $0.50 appear; cursor clicks Core.
- 12–16 s Logo end card: “Assets remain individually held until you approve a trade.”

CAPTION / POST COPY

Plan first. The allocation slate shows your split, your monthly purchase, issuer tilt, overlap and estimated yearly cost before you confirm. (Preview / TestNet demo)

#Allocra #Allocation #ETF #Planning

GENERATION PROMPT (CLAUDE CODE / REMOTION)

```
You are working in the claudemotion repo (Remotion 4, Python audio); follow docs/PLAYBOOK.md and the standing rules in AGENTS.md. Allocra brand: vermilion #C12E19, dark brown #20130E, cream #F6DAC3, accent #CF3321; Instrument Serif headlines (tight tracking), DM Sans body, JetBrains Mono labels (self-hosted); logo public/allocra/content/logo.png. Use only facts from the Fact Bank and label the allocation slate as Preview (TestNet demo). Vertical 1080x1920 at 60 fps. One component per scene, drive everything from the frame, timing in a JSON timeline that also drives the calm original score (scripts/oryn/generate_audio.py). Lint, render stills for a contact sheet, then render and verify with ffprobe and ebur128. Task: 16 s film “Plan first.” Video style (standing rule): follow ONLY the motion grammar of the five reference films (Krea 3, Notion agents, Conqueror, “Pages.”, Supabase Middleware): headline words blur in/out and are swapped in place, a cursor or typing caret drives the story, one idea per beat on one flat colour, UI cards rise in from below with soft shadows, end on a centred logo plus one line or URL. No wipes, stamps or shakes. Use the slate figures exactly (55/25/20, $1,200, High, 0%, $0.50) and keep the Preview tag visible. The slider drag from a lower value to $1,200 is an animation of the control, not data.
```

DAY 2 | P2 · PHOTO | PRODUCT

See it before you confirm

Format	4:5, 1080x1350 design canvas, delivered at 2160x2700 JPEG
Reference	Allocra site slate
Objective	Static slate for saves and shares.

ON-IMAGE COPY

- Headline: See it before you confirm.
- Card: Allocation slate / draft, Core allocation, 3 ETFs, US equity 55%, International equity 25%, US bonds 20%, Monthly purchase $1,200, Issuer tilt High, Overlap 0%, Est. cost / yr $0.50, tabs Income / Core / Growth, Preview tag.

CAPTION / POST COPY

Split, monthly purchase, issuer tilt, overlap and cost, all visible before you confirm anything. (Preview / TestNet demo)

#Allocra #Allocation #ETF

GENERATION PROMPT (IMAGE TOOL, OR AllocraPosts IN REMOTION)

```
Image prompt: dark brown 4:5 poster with fine grid, serif headline “See it before you confirm.”, one dark-red bordered card with a cream donut chart (55/25/20), mono labels and a three-tab selector, hard clean UI, no photos. Preferred: AllocraPosts frame 1.
```

DAY 3 | V3 · VIDEO | PHILOSOPHY

Human judgment, machine precision

Format	14 s, 1080x1920 vertical, 60 fps, original calm score + soft UI sounds, no voiceover
Reference	Pages. (slow push-in) + Conqueror (swap)
Objective	Set the brand tone with the Creation of Adam painting.

SHOT LIST

- 0–10 s The Creation of Adam robot painting rises in with a slow push; text swaps in place: “Human judgment,” to “machine precision.”; mono: Plan with data. Decide yourself.
- 10–14 s Logo end card: “Plan with data. Decide yourself.”

CAPTION / POST COPY

Human judgment, machine precision. Plan with data. Decide yourself.

```

DAY 3	P3 · PHOTO	PHILOSOPHY

Old masters. New allocation.

Format	4:5, 1080x1350 design canvas, delivered at 2160x2700 JPEG
Reference	Allocra collection
Objective	Brand-world post.

ON-IMAGE COPY

- Label: Old masters. New allocation.
- Painting: robot and figure reaching toward each other
- Headline: Human judgment, machine precision.
- Mono: Plan with data. Decide yourself.

CAPTION / POST COPY

Old masters. New allocation. Every great portfolio, like every great painting, is a series of deliberate choices.

#Allocra #OldMasters #Investing

GENERATION PROMPT (IMAGE TOOL, OR AllocraPosts IN REMOTION)

```
Image prompt: dark brown poster, thin cream-bordered painting frame containing a Renaissance fresco-style
painting of a robot and a human hand almost touching, serif headline beneath, mono caption, fine grid.
Preferred: AllocraPosts frame 2 with the supplied painting.
```

DAY 4	V4 · VIDEO	EDUCATION

Look beneath the percentages

Format	16 s, 1080x1920 vertical, 60 fps, original calm score + soft UI sounds, no voiceover
Reference	Krea (highlight row) + Notion
Objective	Explain overlap, concentration, cost.

SHOT LIST

- 0–3 s “Look beneath the percentages.”
- 3–13 s Scholars painting; three rows rise in (Overlap 0%, Issuer tilt High, Est. cost / yr $0.50, Preview). Cursor highlights each row in turn.
- 13–16 s Logo end card: “Overlap, concentration, cost.”

CAPTION / POST COPY

Look beneath the percentages. Overlap, concentration, cost. (Preview / TestNet demo)

GENERATION PROMPT (CLAUDE CODE / REMOTION)

```
You are working in the claudemotion repo (Remotion 4, Python audio); follow docs/PLAYBOOK.md and the standing rules in AGENTS.md. Allocra brand: vermilion #C12E19, dark brown #20130E, cream #F6DAC3, accent #CF3321; Instrument Serif headlines (tight tracking), DM Sans body, JetBrains Mono labels (self-hosted); logo public/allocra/content/logo.png. Use only facts from the Fact Bank and label the allocation slate as Preview (TestNet demo). Vertical 1080x1920 at 60 fps. One component per scene, drive everything from the frame, timing in a JSON timeline that also drives the calm original score (scripts/oryn/generate_audio.py). Lint, render stills for a contact sheet, then render and verify with ffprobe and ebur128. Task: 14 s film. Video style (standing rule): follow ONLY the motion grammar of the five reference films (Krea 3, Notion agents, Conqueror, “Pages.”, Supabase Middleware): headline words blur in/out and are swapped in place, a cursor or typing caret drives the story, one idea per beat on one flat colour, UI cards rise in from below with soft shadows, end on a centred logo plus one line or URL. No wipes, stamps or shakes. Use the Ondo Finance card exactly as in the Fact Bank.
```

DAY 6 | P7 · PHOTO | ECOSYSTEM

Built around the tokenization ecosystem

Format	4:5, 1080x1350 design canvas, delivered at 2160x2700 JPEG
Reference	Allocra universe
Objective	Static ecosystem list with sourced numbers.

ON-IMAGE COPY

- Headline: Built around the tokenization ecosystem.
- Rows: Ondo Finance 383.9K, xStocks 87.3K, Centrifuge 94.2K, Maple 62.4K, Chainlink 1.3M (followers on X, join dates)
- Footer: Source: official X profiles, checked 24 Oct 2026; non-affiliation disclaimer

CAPTION / POST COPY

Built around the tokenization ecosystem. Figures from each protocol's own X profile, checked 24 Oct 2026. Not affiliated with, sponsored or endorsed by these protocols.

#Allocra #Tokenization #RWA

GENERATION PROMPT (IMAGE TOOL, OR AllocraPosts IN REMOTION)

```
Image prompt: dark brown poster with fine grid, serif headline, five thin-ruled rows each with a serif
protocol name, mono handle and a large mono follower count, small disclaimer at the bottom, no logos.
Preferred: AllocraPosts frame 6.
```

DAY 6 | P8 · PHOTO | ECOSYSTEM

Verify it yourself

Format	4:5, 1080x1350 design canvas, delivered at 2160x2700 JPEG
Reference	Allocra universe
Objective	Trust post.

ON-IMAGE COPY

- Headline: Every figure comes from the protocol's own X profile.
- Button: Verify on X
- Line: With a link to check it yourself.
- Source: official X profile, checked 24 Oct 2026.

CAPTION / POST COPY

Every figure comes from the protocol's own X profile, with a link to check it yourself.

```

DAY 7 | V9 · VIDEO | SAFETY

Plan first. Assets remain individually held.

Format	14 s, 1080x1920 vertical, 60 fps, original calm score + soft UI sounds, no voiceover
Reference	Notion (one idea, flat colour)
Objective	Reassure: nothing happens until you approve.

SHOT LIST

- 0–9 s Vermilion. “Plan first.” swaps to “Assets remain individually held until you approve a trade.”; Open workspace button rises in; cursor hovers it; footnote appears.
- 9–14 s Logo end card: “Allocation is a decision, not a default.”

CAPTION / POST COPY

Plan first. Assets remain individually held until you approve a trade.

Image prompt: flat cream poster, huge dark-red tight-tracked serif headline in three lines, small
painted-asterisk app icon top-right, mono footer. Preferred: AllocraPosts frame 8.
```

Before you publish

Things to verify

- The product is a Preview / TestNet demo. Nothing in this plan claims it is live; keep the Preview tag on every slate visual.
- Protocol figures (followers, joined dates) are snapshots from official X profiles checked 24 Oct 2026. Refresh them before posting on later dates.
- Protocol names are used as text only, with the supplied non-affiliation disclaimer. No protocol logos are used. Confirm you are happy to name them.
- The paintings were cropped from the supplied website screenshots (low resolution, upscaled). Send the original image files for sharper posts.
- Painting provenance and image rights: confirm you hold the rights to the artworks shown on the site.
- Handle, hashtags and the allocra.buzz link are not confirmed by the supplied material; check before scheduling.
- The monthly-purchase slider moving up to $1,200 in V2 is an animation of the control; the figures shown are the site's preview figures.
